

MyoVision SERIES-5 Upgrade Program

Straightforward upgrades and competitive trade-ins for current and new MyoVision customers

You asked for a smaller, more robust, versatile system – and we have delivered.

MyoVision's engineers have upgraded the PhysioMonitor Hub to the all new VisionHUB. This new USB hub may be small (less than 2" long) but it is mighty! It's part of an advanced system with unprecedented functionality, including the ability to connect an endless number devices, and scan between exam rooms. Rest easy knowing you have the fastest, most accurate, and dependable system available. Learn more at www.myovision.com/upgrade

Current customers:

- Upgrade your existing hardware to the SERIES-5 for the most economical upgrade option.
- Trade-in your current devices for a brand new SERIES-5 system

New customers:

- Trade-in an approved competitor's system for a credit towards a new system
